

MATCHING GIFT PROGRAMS

Do you work for a matching gift company?

Your company could DOUBLE (or even TRIPLE!) your gift to the Children's Alliance of New Hampshire.

Stop by your company's Human Resources office to ask about their matching gift program and for a matching gift form. All you need to do is complete the required information and mail the form to us. Many companies also match gifts from retirees and spouses – so please check all possibilities.

Corporations and businesses all over the United States encourage their employees to become philanthropists by establishing matching gift programs at the workplace. Through matching gift programs businesses become philanthropic partners with their employees by increasing the impact of their employees' donation up to three times the amount of the gift.

You'll be recognized in our *Honor Roll of Donors* with the combined total of your gift and your company's match, plus what better way to help the Children's Alliance, again!

As the donor you will be notified once we receive your company's matching gift contribution.

If you have any other questions, please do not hesitate to contact Deb Walsh, Director of Operations, at 225-2264 or dwalsh@childrennh.org

Thanks again for your support to the Children's Alliance!
